Letter of Recommendation for Diamond Built, LLC

To whom this may concern,

Red Hawk Fire & Security had the pleasure of recently having our office in Oldsmar remodeled by Diamond Built, LLC. Kurt Dys President of Diamond Built, LLC was a pleasure and a true professional to work with. Kurt sat down with us and really took the time to go over what we wanted and responded quickly to our calls. Kurt provided pricing quickly. When we started this project, we wanted to get everything started as soon as possible and Kurt Dys, with Diamond Built, LLC was the only company that got back to us, in a timely manner and really seemed to care about our project as well as our needs to complete this project on time and under budget.

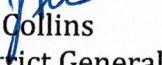

Before having Diamond Built, LLC come in and remodel our building, it was in serious need of some TLC. Diamond Built, LLC came in and listened to what we needed, gave us fair detailed pricing and got to work quickly. Everything promised was delivered on. We were able to get a hold of Kurt Dys whenever we needed. He was here daily to ensure everything was done correctly and that we were happy with finished product.

Kurt and his team were very detail orientated, organized, dependable and honest.

We here at Red Hawk Fire & Security love our new office. We highly recommend Diamond Built, LLC for any of your project needs.

Please feel free to call us should you have any questions.

Sincerely,

  
Jon Collins  
District General Manager
