Re: Letter of Reference

To whom it may concern,

We are pleased to provide this Letter of Reference on behalf of Mr. Kurt Dys and Diamond Built LLC. I have known Kurt now for a few years and we have teamed on several residential and commercial projects together in and around the Tampa Bay region. And are currently pursuing more of each type through mutual referrals on behalf of one another.

Diamond Built LLC's workmanship is excellent, the sub-contractors work is well coordinated. Overall management provided by Kurt is second to none, which encourages cooperation from all sub-contractors to complete the projects on time. Kurt provided assurances that all parties were well organized and motivated. Kurt is always available, an always maintained communication regarding the status of the project. Kurt is very easy to work with and is able to assist in resolving any issue that may arise and quickly and efficiently get them resolved.

On this basis, I am pleased to recommend Kurt Dys and Diamond Built LLC as General Contractors for any of your project needs and look forward to working with Diamond Built LLC in the future on our projects.

Please feel free to call us should you have any questions.

Sincerely,

Dept. of Architecture, LLC

David J. Del Tosto, AIA, NCARB
President + Principal Architect
