Reference Letter for Diamond Built LLC

To whom it may concern,

Sharp Design Group has had the pleasure of working with Diamond built LLC on several occasions most currently on a demolition and rebuild of a two story custom home in Safety Harbor. We have also done commercial buildout work and renovation work of a local religious facility together.

Kurt Dys, President of Diamond Built LLC, was well-organized, detailed in his document management and communication, and proactive in his handling of the schedule and costs. He anticipated construction issues early enough to discuss at site meetings and adapted his schedule to maintain momentum of the project as well as to keep in step with the schedule.

Kurt Dys was attentive to detail and had a solid ability to problem-solve. Throughout the projects he has shown to offer a clear line of communication as well as a chain of command which helped make decision-making efficient. He was honest, forthright, and professional in conduct. Furthermore, Diamond Built LLC managed to end the projects well by completing them in a timely manner to the client satisfaction.

I highly recommend Diamond Built LLC and look forward to working on future construction projects together.

Sincerely,

Diego Duran, Architect
Vice President of Architecture
Sharp Design Studio, LLC
